

## Why Buy Vinyl Windows?

### **It's the Best and Most Widely Used Window in the Marketplace!**

#### **Maximum Energy Efficiency – Improve the Comfort of Your Home**

- Vinyl is a very poor conductor of heat and cold
- Vinyl windows have welded frames and sashes which minimizes air and water infiltration
- Vinyl windows are corrosion resistant
- Vinyl windows are 25% more efficient and reduce energy costs

#### **Low Maintenance and Reduced Service Costs**

- Reduction in condensation on frames and glass since frames do not conduct heat or cold
- Quiet and reliable operation of windows
- Dual lift rails make for easy sash lifting

#### **Improved Weatherability**

- Integral color throughout the frame
- Reduced water and air infiltration
- Better performance relative to corrosion

#### **Improve the Value of Your Home**

- Premium product that improves the overall energy efficiency in your home

#### **Better Sound Control**

- Vinyl frames and insulated glass reduces sound transmission

#### **Limited Lifetime Warranty**

- Lifetime Warranty on all parts and workmanship
- Ten-Year Insulated Glass Warranty
